

Class 1 – Science – The Human Body - Senses

Human Body – Living things are made of cells that work together to help each other live

Senses

sight

hearing

touch

taste

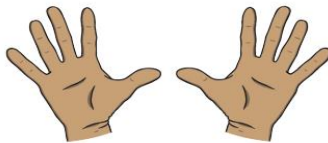

smell

Eyes

Ears

Skin

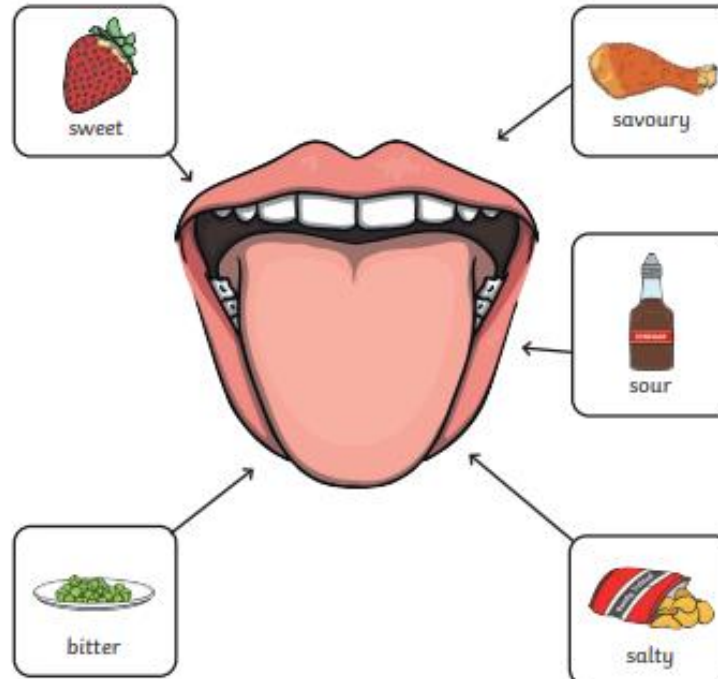

Tongue

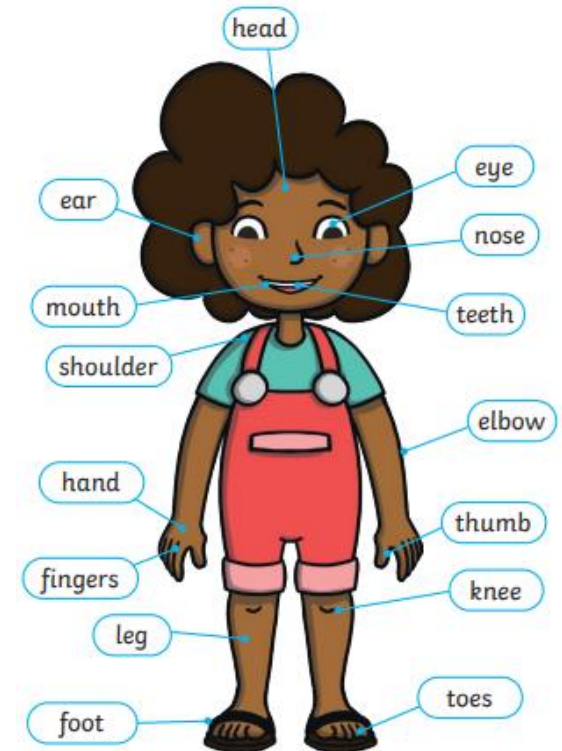

Nose

The five basic tastes

Parts of the Body

EYFS and Y1 Vocabulary

Sight – Your eyes let you see all the things around you.

Hearing – Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.

Touch – Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!

Taste – Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet.

Smell – You smell using your nose. Your nose can tell if things smell nice or not nice.
