

Class 1 – Science – exploring the seasons and the new season of summer.

Concept: Evolution—Understand evolution, reproduction and how living things have adapted over time.

Vocabulary

Season— different times of the year.

Weather — a description of what the conditions are like in a particular place

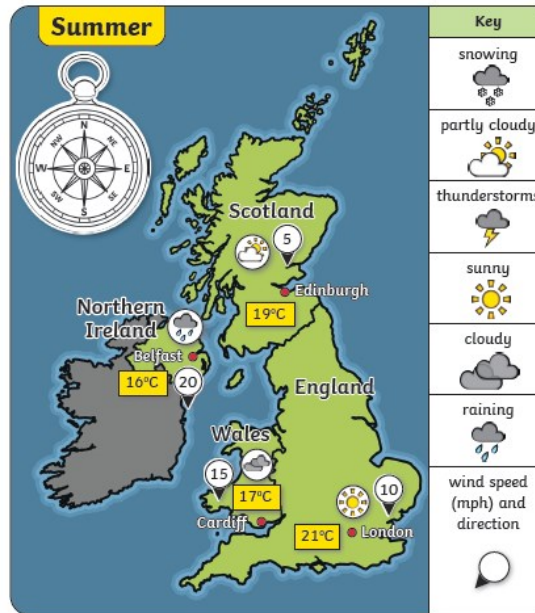

Summer— the season between Spring and Autumn, it is generally warmer and the day light is longer.

Temperature— measuring how hot or cold.

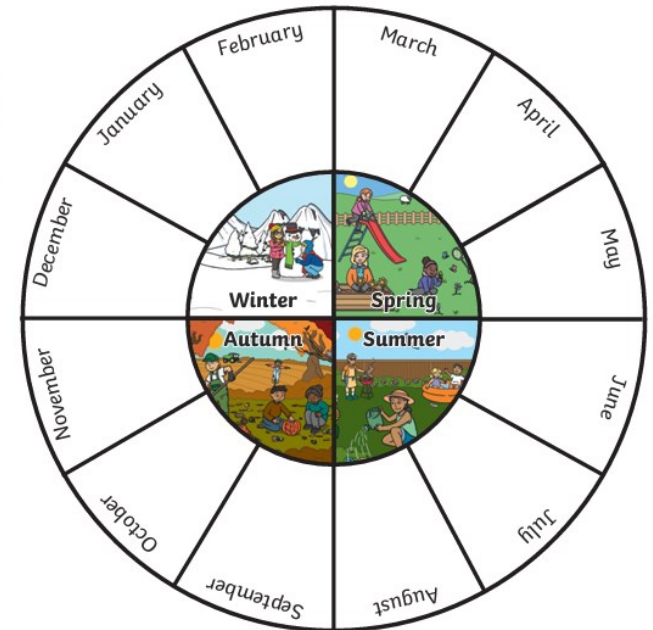

Daylight— is when it is light outside, the amount changes with each month.

Summer!

Weather Maps

The four seasons

Daylight hours each month:

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June	July	Aug
