

Class 1 – Design Technology – Creating puppets

Concept: Evaluation - Understand the concept of the iterative process. They can look at any design and suggest marginal or large improvements.

Vocabulary

mechanism— putting together moving parts to form movement.

design— to plan and make decisions about how something is made.

puppet — small figure moved using a hand, rods or strings.

connection— bring together

pivot — to turn around a point

My Final Design

Name: _____

I am going to make: _____

This is a picture of my idea:
